Foreword	III
Acknowledgements	IV
About the Human Security Centre	VI
Preface	VII
What is Human Security	VIII
Overview	1
PART I The changing face of global violence	13
Introduction	15
Getting it wrong about war trends	17
Fewer wars, fewer deaths	22
The changing nature of warfare	34
Targeting civilians	40
Fear of war, fear of crime	47
PART II The human security audit	61
Introduction	63
A new global dataset	66
Measuring human rights abuse	77
Tracking criminal violence	80
Human trafficking	86
Creating a human security index?	90
PART III Assault on the vulnerable	99
Introduction	101
The plight of the displaced	103
War and sexual violence	107
Child soldiers	113
PART IV Counting the indirect costs of war	123
Introduction	125
Beyond battle-deaths	127
Measuring the hidden costs of armed conflict	129
HIV/AIDS and conflict	135
PART V Why the dramatic decline in armed conflict?	145
Introduction	147
The decline of international war	148
The rise and decline of civil war	150
Conclusion	155

List of boxes

PART I The changing face of global violence

Why there are no official statistics on political violence	31
WHO's war death data and the <i>Human Security Report</i>	42
The arms trade, defence budgets and troop strengths	48

PART II The human security audit

What's new about the Uppsala/Human Security Centre dataset?	79
The myth of civilian war deaths	87
Children, drugs and violence in Rio	96

PART III Assault on the vulnerable

Militarising refugee camps	117
Men as victims, women as warriors	122

PART IV Counting the indirect costs of war

War and disease in the Democratic Republic of the Congo	146
How HIV spreads	148

List of figures

PART I The changing face of global violence

Figure 1.1 A less violent world: Numbers of conflicts, 1946–2003	35
Figure 1.2 Number of armed conflicts, 1946–2003: Global and regional breakdowns	36
Figure 1.3 The countries that have experienced the highest number of international armed conflicts, 1946–2003	38
Figure 1.4 The most conflict-prone countries, 1946–2003	39
Figure 1.5 International crises plummet, 1946–2001	40
Figure 1.6 War becomes less deadly: Battle-deaths, 1946–2002	41
Figure 1.7 War death estimates compared	42
Figure 1.8 War death-rates by decade, 1950–1997	43
Figure 1.9 Numbers of battle-deaths, 1946–2002: Global and regional breakdowns	44
Figure 1.10 Major arms transfers, 1987–2003	48
Figure 1.11 The rise and fall of genocide and politicide, 1956–2001	53
Figure 1.12 Good news? International terrorist attacks, 1982–2003	54
Figure 1.13 Bad news: International terrorist attacks, 1982–2003	55
Figure 1.14 Casualties from international terrorism, 1982–2003	56
Figure 1.15 Regional perceptions of international security	61
Figure 1.16 Regional perceptions of national security	61
Figure 1.17 What do people fear most?	63

Figure 1.18	How many people experience violence?	64
Figure 1.19	Which countries experience the most criminal violence?	64
Figure 1.20	Expectations of violence: Experiences versus reality	65
