

Figures for the *Human Security Report 2012*

Figure 8.4 Deaths from One-Sided Violence by Region, 1989–2009

Data Source: UCDP/HSRP Dataset.

Over the past two decades, sub-Saharan Africa saw the majority of deaths from one-sided violence. This is in part due to the Rwandan genocide in 1994, but the result holds even if we exclude that lethal campaign.
